1.

To Assemble

Attach the lampshade to the lamp base, ensuring that the magnetic parts are correctly aligned. Fasten the screws on the base.

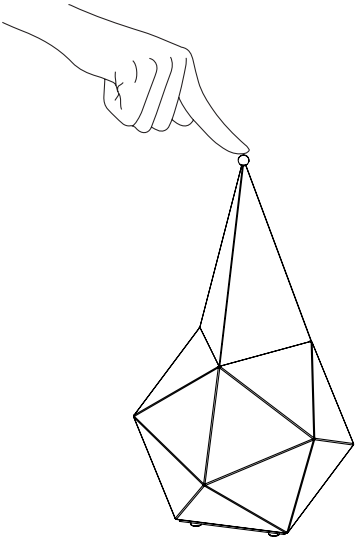

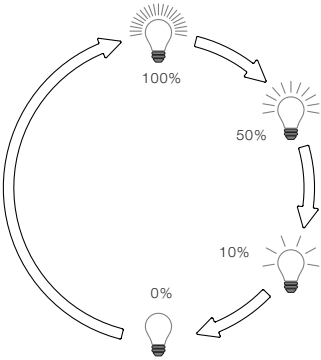

2.

To use

Activate the lamp by touching the top of the lamp.

Upon the first touch, the light activates at 100% intensity. A second touch reduces the brightness to 50% intensity, while a third touch further dims it to 10% intensity. The fourth touch will turn off the lamp entirely.

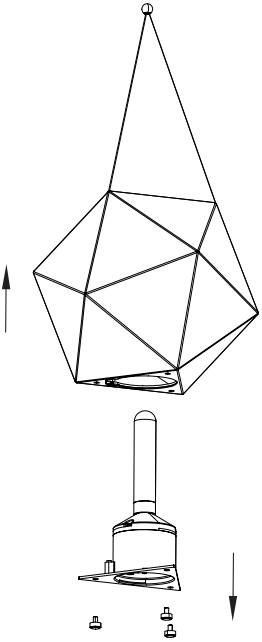

3.

To Troubleshoot

If the lamp fails to activate as expected, follow these troubleshooting steps to examine the light bulb:

1. Unscrew the 3 screws located at the bottom of the lamp.

2. Carefully disattach the lamp shade from the base to gain access to the bulb. Ensure the bulb is securely fastened to the base.

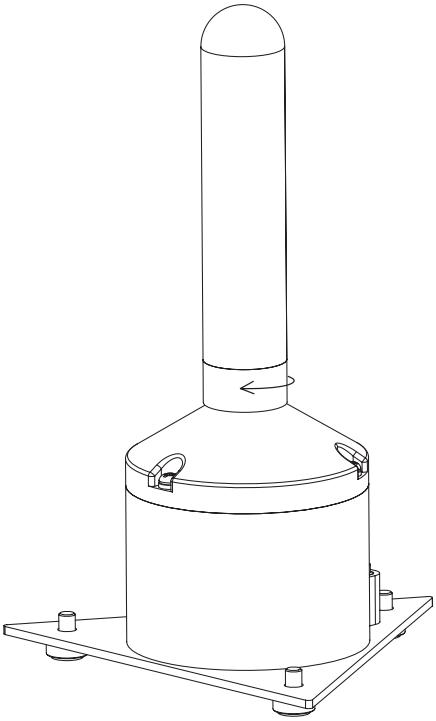

4.

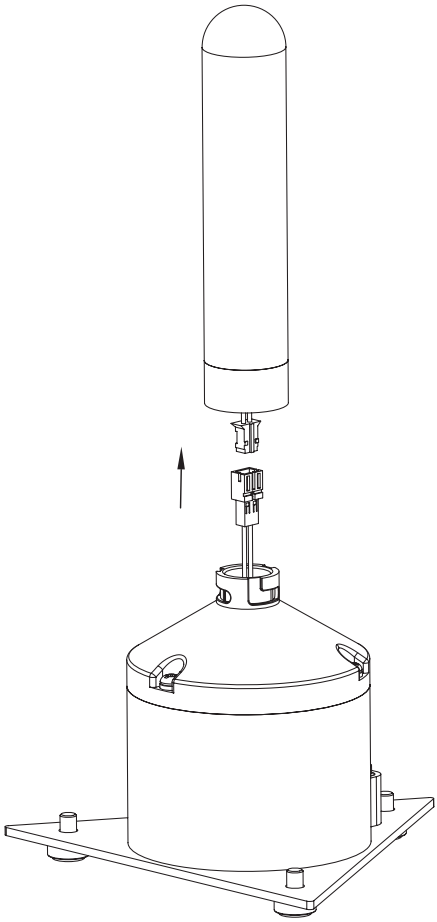

Should the bulb be malfunctioning, it can be replaced by following these steps:

1. Unscrew the bulb by turning it clockwise to unlock and release it from its position.

2. Lift the bulb to detach it and disconnect the cable. Then, connect the cable to the new bulb, and screw it into the base by turning it counter-clockwise to secure it.

For Additional guidance, please reach out to our customer service.

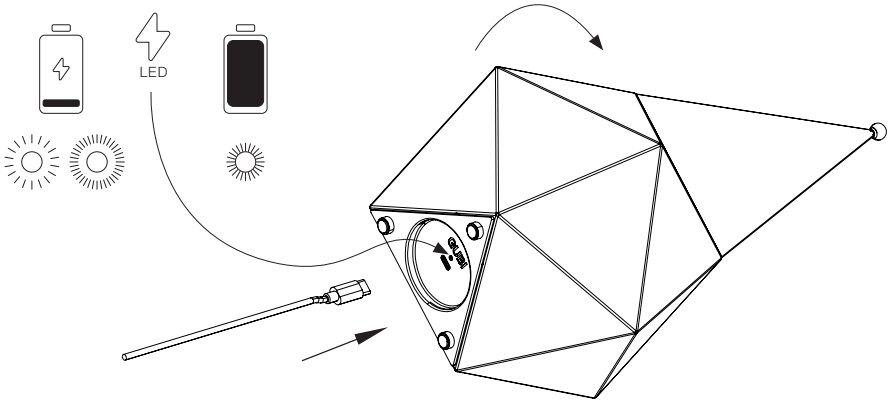

5.

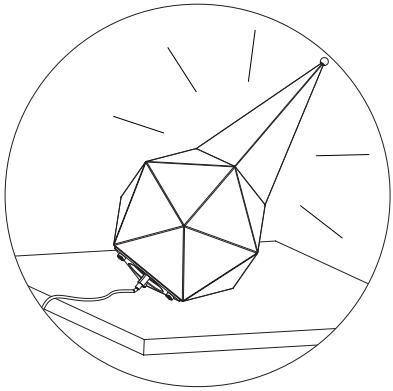

To Charge

1. Tilt the lamp for easier access to the charging port.

2. Plug the USB-C electrical cable using a USB adaptor (example: like a Phone charger) with 5V and min 1.000 mAh of power (Charger not included)

LED indicator will calmly breathing while charging, when charge is complete the LED indicator will show constant warm white light. Please remove charging cable after full charge. Lamp can be activated while USB cable is connected.

The table lamp can be positioned at the angle shown to allow charging while it is in use.

CARE INSTRUCTIONS

Wipe the table lamp with a dry cloth or a damp cloth soaked in warm water. Use only soft cloth for wiping and polishing, never sponges or steel wool. Do not use abrasive household cleaners. Do not use acidic or alkaline cleaning materials, glass cleaner or household ammonia.

TROUBLESHOOTING

If lamp does not light, turn off the power. Check the bulb for a broken filament. Replace bulb if necessary, then turn it on. If the lamp still does not light, please contact customer service at the local dealer. If the external flexible cable or cord of this lamp is damaged, it must be replaced by a qualified electrician in order to avoid a hazard.

TECHNICAL INFORMATION

Light sources: LED, 70 Lumen (Max 0.8W LED)
Isolation class III.
The lamp is approved for outdoor use or in damp/wet rooms (IP44). If the lamp is exposed to liquid, it must be dry before operating.
