ISHI COFFEE TABLE MINI

Named after the Japanese word for “rock,” the Ishi Coffee Table is a sculptural piece that captures the quiet beauty of natural stone formations. Its organic, cube-like form, with soft, time-worn deformations, balances minimalism with a sense of grounded calm.
Each table is mouth-blown from molten glass, shaped in a custom mold at 1500°C, then tempered and hand-finished. A spray-painted inner surface gives Ishi its distinctive hue, while a wooden base with metal reinforcement adds strength and stability. Subtle variations and air bubbles make each piece unique.
Available in two sizes and colors - Smoked Forest, a warm, deep brown, and Smoked Desert, a soft, misty grey - Ishi functions equally well as a side table or centerpiece. Its quiet presence and refined craftsmanship make it a timeless addition to both residential and commercial interiors.
